

SOP-01 NTRR ACCOUNT REQUEST / DATA ACCESS PERMISSION REQUEST

Reviewed: January 19, 2016

The NTRR is a restricted access portal to search data relevant to traumatic injury research. A NTRR account is required to submit or access trauma-related data. Investigators and data managers at research sites are invited to request an account. To provide maximum protection for the confidentiality of research participants whose data is stored in the NTRR, professional credentials are verified by the NTRR Data Access & Quality Committee (DAC) during the account request process.

Prerequisites:

1. Signed PDF of the Data Access Request (DAR) form.

Procedure:

This procedure provides process steps for account request initiation, authorization, and validation. The entire procedure typically requires 1-3 business days (assuming Prerequisites are already met).

Data Access Permission Request Initiation

1. Point your browser to the NTRR website at <http://ntrr.nih.gov>.
2. Click the "LOGIN" menu link and login using your username and password. Then click the "Request a New Account" link.
3. On the Account Management page, under Administrative File Templates, click and download the Data Access Request template.
4. Once completed and signed, upload the DAR under "Upload Supporting Documentation."
 1. Click on "Data Access Request" under the "File Type" drop down menu
 2. Click on the [Browse] button to search for your document
 3. Upload your document
5. Click the [Continue] button once the DAR has been uploaded.
6. On the next Account Management page, fill in the required fields denoted with an *.
 1. Note: When describing interest in the NTRR, keep in mind that this information is pertinent to having administrators approve the account.
7. Click the [Continue] button when required fields are complete.
8. On the "Request an Account: Account Privileges" page, check the boxes corresponding to the Data Repository, Query, and Datastore privileges.
9. Click [Submit Request].
10. If all required fields were successfully entered, a confirmation page will be displayed.

Data Access Permission Request Review and Authorization

1. The NTRR Operations staff reviews the Data Access Request form for accuracy and completeness.

2. The NTRR Operations team may contact the applicant for more information if there are any errors in the form.
3. The NTRR Operations staff provides this form to the NTRR DAC.
4. The NTRR DAC reviews the information and authorizes data access.
5. With authorization from the NTRR DAC, the NTRR Admin establishes a user account, with the privileges corresponding to data access.
6. The NTRR Admin sends you an automated email message notifying you of your account activation, or of a change in your account privileges.

Account Validation

1. Watch your email inbox for a message from "noreply@ntrr.nih.gov" with subject "Your NTRR website account has been approved." If you do not receive an email in a timely manner, please check your spam filter and/ or reach out to the NTRR team.
2. Return to the NTRR website to login.
3. You may now access the data in the NTRR.

DAR FAQs:

1.Q: What fields are required?

A: All pertinent information under Recipient Information and Certifications is required.

2.Q: If I am the PI of a study who is completing the Data Access Request form, what do I fill out?

A: If you are the PI of a study requesting data access, please complete all relevant Recipient Information and Certifications information. You do not need to complete the Project Director/Principal Investigator Contact Information section.

*Please be sure to include the Recipient's Authorized Institutional Business Official information

3.Q: If I am not the PI, but am another member of a research team who is completing the Data Access Request form, what do I fill out?

A: If you are another member of a research team requesting data access, please complete all relevant Recipient Information and Certifications information.

*Please be sure to include your Project Director/Principal Investigator Contact Information, and the Recipient's Authorized Institutional Business Official information

4.Q: Who should complete the Recipient's Authorized Institutional Business Official Information?

A: The person who signs off on this section of the form needs to be responsible for assuring compliance with all the conditions associated with accessing NTRR data. Below is a link to the data sharing policy measures that should be adhered to. The person that is authorized to sign off as the business officer for this data access request can vary from site to site. Although we recommend consulting leadership within your organization, we usually see department heads or those individuals that would sign off on clinical trial agreements (CTAs) for multisite trial participation.

5.Q: How do I know which modules to request in the NTRR?

A: You should request modules based on your need in the system. The privileges and their details are listed below:

Data Submission:

GUID- generates global unique identifiers for study participants

Data Dictionary- users can create data elements and form structures for their studies

Data Repository- houses information pertaining to studies, the PIs, and correlating data that is in the NTRR

Data Access:

Query- users can access and download data stored in the NTRR

Data Repository- mentioned above

Datastore- allows researchers to upload documentation and data that could be used
